

**The City Council met in a Special Meeting on Tuesday, August 7 to discuss and review the prioritization process and ranking of the recommendations from the Citizens Advisory Committees.**

***The following are the broad prioritized categories the City Council recommended for further study and review:***

- Expedite development of the Cotton Belt/DART train station
- Enhance External Communication
- Explore the development of the Addison Community Foundation
- Develop a Sustainability Philosophy to provide policy and future direction for staff
- Redevelop Inwood Road (culinary district, move theatre, other options)
- Consider funding a study on the feasibility of a Charter School (including adult education)
- Expand the Arts and the Water Tower Theatre (including a new Cavanaugh Museum located in this new arts district)
- Develop an Economic Development Philosophy (including Airport development) to provide policy and future direction for staff

***The City Council requested that these steps be taken over the next few weeks:***

- Staff will group appropriate Citizen Advisory Committee recommendations under the priority issues above (if some of the 84 do not fit into any of the above categories, they will be listed separately).
- The City Manager will provide specific feedback to the Council as to the feasibility of each proposed idea, as well as his direct feedback on the “fit” for the Town, based upon his experience. This will include estimated costs for the larger projects.
- Council will further develop the issues/ideas above based upon the information provided by staff.
- The Town’s website will continually provide timely information to the Advisory Committee members as to the status of the Advisory Committee process.
